

LOWER GEORGIA AVENUE EQUITABLE DEVELOPMENT PROJECT

DESCRIPTION: The Lower Georgia Ave Equitable Development Project is a new initiative that aims to look holistically at the resources, concerns, and opportunities in the Pleasant Plains, Park View, and LeDroit Park neighborhoods and convene residents in the future of the area. The proposed objective will be to devise an action plan of policies, programs, and practices that will help ensure a more equitable future for the corridor. While the Office of Councilmember Nadeau is launching the project through initial funding, the intent is for it to be community-driven and ultimately community-owned. A top priority will be elevating the voices of residents of color in planning the future of Lower Georgia Avenue.

PROPOSED PROJECT GOALS

LOWER GEORGIA AVENUE COMMUNITY PARTNERSHIP

A multi-stakeholder forum intended to facilitate discussion, information sharing, and consensus-based decision-making through: 1) Inclusive and equitable advisory participation by key residents and stakeholders, and 2) Collaboration and agreement among developers, community organizations, key partners, and project beneficiaries. The proposed structure of the Community Partnership will include an executive body and seven (7) potential working groups.

Together, let us envision and create an affordable, equitable, and inclusive Georgia Avenue community!
